

SIDE QUEST

The Shannon River Basin Challenge

The Shannon Studio is a collaborative hub for experimenting with solutions to societal challenges, leveraging space-enabled technologies and research across disciplines. It also serves as a **knowledge source** on the history, activities, and opportunities within the **Shannon River Basin**.

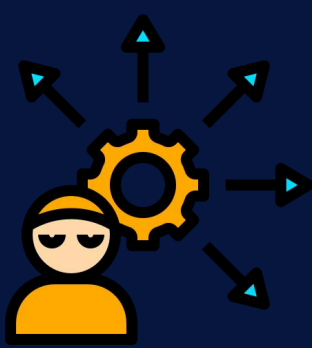

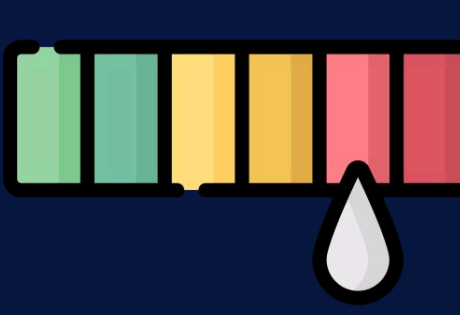

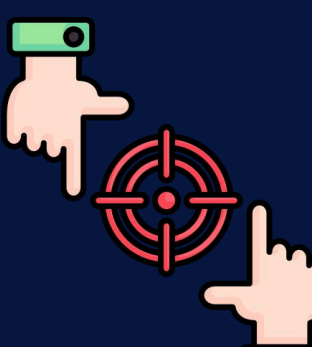

Why this matters?

- The Shannon Basin is a **living laboratory** of environmental, social, and economic activities.
- This side quest enables creation of a **repository of open, structured and localized challenge statements** designed by participants.
- It will fuel:
 - Hackathons & student coursework
 - Research projects & policy agendas
 - Industry & community collaborations
 - Future startups & Localised ecosystems

What makes a strong challenge?

Framework for challenge design

Title (Short and engaging)	
	Background Context (Why it matters)
	Problem Framing (The guiding question)
	Expected Outcomes (Examples, not prescriptions)
	Difficulty (Beginner, Intermediate, Advanced)
	Scope (What's included and what's excluded)
	Resources (Data, knowledge, tools and spaces)
	Inspiration (References from elsewhere)

Submit a **qualitative challenge** which will fuel the future of the **Shannon space ecosystem** and win prizes...
